THE CHALET BURNER

Bask in the comfort of a generous spire of flame nestled between split logs and glowing embers.

Available on TC36 See-Thru

THE LODGEWOOD BURNER (TC36 SEE THRU ONLY)

The Lodgewood Burner is sold as a complete 3-pc set: firebox panels, burner and logset, and is not interchangeable with existing Design-A-Fire elements. For optimal flame, Town & Country recommends using Natural Gas with LODGEWOOD; burning with LP fuel will result in a lower flame height.

Available on TC36 See-Thru models.
